Internet

Infrastructure

• CAT 5E
• Single Cable to Desktop?
• Segmented Network?
• 84K per call at G.711
• Using Public Internet
• Analog / Digital / SIP
Digital vs. IP
Hosted Voice

- Strictly an IP Solution
- Need good broadband
- Uses public Internet
- SIP phones ONLY
- Monthly service charge per phone
- Can use IP or Traditional lines in Premis-based equipment
- Can use IP or Traditional phones
- Can take advantage of SIP cost savings
- One-time equipment fee and monthly service
Digital vs. IP

- Strictly an IP Solution
- Localized equipment but not a “Phone System”
- SIP Phones only
- Must use provider phone service
- One-time equipment fee and monthly service

Hosted/Prem Hybrid
